

# DISPERBYK-130

Wetting and dispersing additive to stabilize acidic carbon black pigments in particular.

Please do not use this additive for new developments.

For possible alternative products, please contact our technical advisers or [info@byk.com](mailto:info@byk.com).

## Product Data

### Composition

Solution of polyamine amides of unsaturated polycarboxylic acids

### Typical Properties

The values indicated in this data sheet describe typical properties and do not constitute specification limits.

Amine value:	190 mg KOH/g
Acid value:	< 3 mg KOH/g
Density (20 °C):	0.93 g/ml
Non-volatile matter (20 min., 150 °C):	51 %
Solvents:	Alkylbenzenes/butylglycol 5/1
Flash point:	45 °C

### Food Contact Legal Status

For the current food contact legal status, please contact our product safety department or visit [www.byk.com](http://www.byk.com) for further information.

### Storage and Transportation

Moisture sensitive. Store dry.

### Special Note

In the presence of water, the additive loses its stability, thereby impairing its effectiveness.
